5. Comments:

5.1)

- Dr. Toll is a fantastic professor. He is extremely knowledgeable about the material and uses lots of enthusiasm to keep his students engaged.
- I came into this class expecting something completely different (my fault), but there were a lot of things I think could be improved. Firstly, I believed there was a lack of structure in the class, and we just seemed to bounce around to different topics everyday. I'm someone who works well with units, so maybe you should break it up into specific units so it's easier to mentally digest. Obviously you know what you're talking about, so I commend you in your knowledge on the matter, but you need to be more structured to held spread your knowledge to the students.
- This was probably my favorite class. Dr. Toll is so smart and excited about the material that it made me want to learn.
